

PENSIONS FOR  
EX-PRESIDENTS**Carnegie Corporation Grants  
\$25,000 a Year.****SIMILAR AMOUNT TO WIDOWS**

Idea Advanced Is to Enable Former Chief Executives to Devote Their Unique Knowledge Gained in Public Affairs to the General Good, at the Same Time Being Free From Pecuniary Care.

New York, Nov. 22.—Future ex-presidents of the United States are to be pensioned in the sum of \$25,000 each annually by action of the Carnegie corporation of New York.

The grant is provided for with the idea of enabling former executives of the nation to devote their unique knowledge gained in public affairs to the public good, free from pecuniary care.

A similar amount is to be paid widows of former presidents as long as they remain unmarried.

The pensions are to be promptly offered to the former presidents or their widows, so that no application will be required from them. Payment is to be continued so long as the recipients "remain unprovided for by the government."

The official announcement covering the matter of pensions for former presidents and their widows follows:

"Provision has been made through this corporation for a pension for each future ex-president or his widow unmarried of \$25,000 per year as long as these remain unprovided for by the nation, that they may be able to spend the latter part of their lives devoting their unique knowledge gained of public affairs to the public good, free from pecuniary cares. These pensions will be promptly offered to the ex-presidents or their widows, so that no application will be required from them."

The announcement followed the second annual meeting of the corporation, held at the residence of Andrew Carnegie here, and was attended by the corporation's eight trustees.

**Prominent Men Trustees.**

Five of these eight trustees are the heads of the five institutions which Mr. Carnegie has founded: The Carnegie endowment for international peace, Elihu Root, president; the Carnegie foundation for the advancement of teaching, Henry S. Pritchett, president; the Carnegie institution of Washington, Robert S. Woodward, president; Carnegie hero fund commission, Pittsburgh, Charles L. Taylor, president; Carnegie institute of Pittsburgh, William M. Frew, president.

The successors of these five men become ex-officio trustees of the Carnegie corporation of New York. In addition there are three life trustees—Andrew Carnegie, Robert A. Franks and James Bertram.

The trustees authorized this statement of the corporation's aims:

"A total of \$125,000,000 in securities has thus far been transferred to the corporation, which will carry on the various works in which Mr. Carnegie has been engaged and such others as he may from time to time think it advisable to establish. Mr. Carnegie believes he has taken the surest means of securing for the future a body of the best possible trustees. The heads of the institutions named must inevitably be men of high moral and intellectual standing. They are empowered by a two-thirds vote to modify or discontinue any branch of the service which in their judgment has become inadvisable or unnecessary, or if better use can be made of the fund. They are authorized also to adopt from time to time such work as may be deemed most desirable for the wants of the age."

**TAFT THINKS IT NOVEL PLAN**

But President Will Reserve Comment on Pension Proposition.

Washington, Nov. 22.—When informed of the action of the Carnegie corporation of New York in providing pensions for future former presidents of the United States president Taft said it was a very novel and very unexpected proposition, but that he preferred to make no comment upon it.

In a speech before the Lotus club in New York city last Saturday night the president hinted broadly that congress should provide for former presidents so that they need not lower the dignity of the position they held when they re-enter private life.

**Fearing Loss of Reason.**

Minneapolis, Nov. 22.—Fearing that a nervous breakdown would rob him of his reason A. T. Morse, one of the best known merchants of Excelsior, Lake Minnetonka, and formerly a wholesale merchant in Minneapolis, shot and killed himself instantly in the presence of his friend, R. H. DeGroodt, in the latter's store at Excelsior.

**Hilles Resumes Former Duties.**

Washington, Nov. 22.—Charles D. Hilles resumed his duties as private secretary to the president, succeeding Carmel Thompson, appointed treasurer of the United States. Mr. Hilles formally resigned to become Republican national committee chairman several months ago.

PLANNED SECOND  
TIMES BLOW UP**McManigal Aimed to Destroy  
Paper's Auxiliary Plant.****FAILED TO SECURE CHANCE**

Two Months After First Blast Confessed Dynamiter Says He Went to Los Angeles With Twelve Quarts of Nitroglycerin to Wreck Times Building—Bright Lights and Guards at Night Prevented Carrying Out the Scheme.

Indianapolis, Nov. 22.—Equipped with twelve quarts of nitroglycerin Ortie E. McManigal in December, 1910, went to Los Angeles, Cal., commissioned to destroy the Times auxiliary plant and by "adding a few more to the list of dead" to take suspicion off James B. McNamara, who had killed twenty-one persons in the wreck of the Times building two months before. McManigal so testified at the so-called dynamite conspiracy trial. He named men other than the McNamaras as having inspired the second Los Angeles dynamite plot. He said he was prevented from carrying it out by the discovery, on reaching Los Angeles, that the auxiliary plant was too well guarded and illuminated at night. Instead he set a bomb in an iron works plant to explode Christmas day.

That was the Christmas present, he said, Olaf A. Tveitmo, a labor leader in San Francisco, had asked for, and on his return East he stopped off at Labor temple in San Francisco and, on Tveitmo's being absent, left this message with Eugene A. Clancy:

"Tell Tveitmo his Christmas present has been delivered."

It was the same Christmas present, the government charges, which Tveitmo later refers to in a letter to Frank M. Ryan, president of the Iron Workers' union.

On his return to Indianapolis, McManigal said, he was called down by John J. McNamara because not enough dynamite had been done in Los Angeles and John J. proposed to send to Los Angeles by express bombs so regulated that they would explode when unwrapped, but McManigal protested, saying the explosions might occur on the train and kill innocent people.

**Hid in Wisconsin Woods.**

McManigal and James B. had been hiding in the Wisconsin woods, McManigal said, like a pair of pirates, each with a red handkerchief about his head in conformity with the game laws and a rifle over his shoulder, when a number of detectives appeared at their lodging house. Eluding the detectives they came to Indianapolis.

So elated was John J. McNamara over the escape of his brother that he proposed that McManigal start at once for Los Angeles.

John J. said he had been to a labor convention at St. Louis and had seen Tveitmo there and that Tveitmo wanted some more explosions to come off on the coast," said McManigal.

"He said I was to cause three explosions—the Times auxiliary plant, the Baker iron works and the Llewellyn iron works. He said, 'put a good mess of it under the Times auxiliary and add a few more to the list of dead. They've been questioning Tveitmo and Anton Johansson out there and we'll throw them off the track.'"

"He also told me to fix up some kind of a suitcase with a bomb in it so that it would explode when anybody opened it. He wanted it fixed so that if the police got hold of any of my bombs there wouldn't be much of the bombs left after they were opened."

McManigal told of a conversation with Herbert S. Hockin in which it was proposed to "get rid of" Miss Mary C. Dye, McNamara's stenographer at the union headquarters, "because she knew too much."

**Two French Aviators Killed.**

Rheims, France, Nov. 22.—Two aviators were killed, one, Andre Frey, at Rheims, and the other, Sub-Lieutenant Laurent, at Etampes. Frey was well known on both sides of the water. He finished third in the international aviation race at Chicago in September of this year.

**DEPLORES WOMEN SMOKING****Bays Mothers Transmit Taste to Children.**

Kansas City, Nov. 22.—"Smoking by women is to be deplored, especially because the taste for nicotine may be transmitted to the children," declared Mrs. Mary Foster Briner of Chicago, addressing the forty-seventh annual state convention of the Missouri Sunday School association here.

She said children should be shown "a few of the interesting facts disclosed by scientific investigation—that 30,000 babies die in the United States every year from inherited diseases due to tobacco and alcohol."

**JOSEPH T. DAVIES.**

Mentioned for Secretary to President Elect Wilson.

© 1912, by American Press Association.

**MENTIONED FOR SECRETARY**

Davies of Wisconsin or Malone of New York to Aid Wilson.

Washington, Nov. 22.—The important post of secretary to the president in the Wilson administration will be awarded to either Joseph T. Davies of Wisconsin, Democratic national committeeman from that state, or to Dudley Malone of New York, a son-in-law of Senator O'Gorman, according to statements made by Democratic leaders.

Davies and Malone are young men. Each is well known to the president elect and each was prominent in the party organization during the last campaign.

Mr. Davies was in charge of Western headquarters in Chicago. Mr. Malone spent a good deal of time traveling with Governor Wilson.

CONGRESS MAY CUT  
OLEOMARGARINE TAX**Democrats Plan to Reduce Rate  
From 10 to 2 Cents.**

Washington, Nov. 22.—The law imposing a tax of 10 cents a pound on oleomargarine made in imitation of butter will be repealed at the coming regular session or the special session of congress to be called in April by President Wilson. The Democrats are committed to the repeal of this statute. Representative Lamb of Virginia, chairman of the house agricultural committee, announced that the committee would meet Dec. 4 to consider the repeal bills.

The measure that will doubtless be reported by the committee is the one introduced by Representative Lever of South Carolina. This bill provides that a tax of 2 cents a pound shall be levied on oleomargarine, both colored and uncolored, instead of 10 cents a pound on uncolored and 10 cents a pound on colored, as provided by the existing law. The bill provides that colored oleomargarine shall be sold in original packages, each package as well as the product itself to bear the word "oleo."

In the opinion of the Democratic leaders the government's only duty is to see to it that the consumer knows precisely what he is purchasing. The charge is made that the 10 cent tax on colored oleomargarine was levied as a means of protecting the dairymen to the disadvantage of the maker of oleomargarine.

**APPROVES GOMPERS' IDEAS****Federation After Debate Commends His Nonpolitical Policy.**

Rochester, N. Y., Nov. 22.—An important feature of the session of the American Federation of Labor convention was the endorsement of the report of the committee of president, commending the nonpolitical policy which has been pursued by President Gompers and other officials of the federation.

The endorsement came after a lengthy debate. Delegate Max Hayes, a Socialist member of the radical wing, opposed the committee's report on the ground that during the last campaign President Gompers has, through publications of the federation, supported the Democratic candidate for president and that in quoting plans favorable to labor from various political platforms he had made no quotations from the Socialist platform.

**Runs Auto Into Ocean.**

San Francisco, Nov. 22.—Obeying the orders of his employer, H. H. Hart of Oakland, James Litz, a chauffeur, ran a \$4,500 automobile off the rear of a ferryboat in San Francisco bay. Hart's desire to drown the offending automobile was reached after it had rolled up a repair bill amounting to \$2,000.

**EXPENSIVE FUEL IS USED****Steamer Runs Out of Coal and Burns Part of Cargo.**

Yokohama, Nov. 22.—The British steamer Lord Curzon consumed all her coal supply and was compelled to burn a portion of her cargo to keep her fires going on her voyage from Seattle to this port. She was over six weeks on the voyage, as she left Seattle on Oct. 6 and arrived here only on Nov. 20. She met with very heavy weather.

WHO FOR STATE  
SECRETARYSHIP?**Bryan the Man, but Appointment  
Might Be Embarrassing.****SERIOUS PROBLEM FOR WILSON**

If Nebraska Is Not Chosen It Will Not Be Easy to Find a Man Big Enough and Yet Not Too Big—Next Senate Can Be Organized on Conservative Lines—Bourne's Last Days.

By ARTHUR W. DUNN.

Washington, Nov. 22.—[Special.]—Not only the self-appointed cabinet makers but Governor Wilson also is having some difficulty in naming a man for secretary of state. It is a very important place in this administration, for beyond question there is going to be a change in our foreign policy with the advent of the new president and the teachings of the Democratic party. By common consent it is assumed that Governor Wilson will offer Mr. Bryan the place, and he will be more embarrassed by an acceptance than he would in finding another man.

No man in the Democratic party is better equipped for secretary of state in the way of political experience, travel, study and general information than Mr. Bryan. He has been almost everywhere upon the globe, studying the people and the conditions, including our own little Philippines. But this very knowledge and the firm views which Mr. Bryan entertains might make him a very embarrassing member of Wilson's cabinet.

**The Blaine Precedent.**

When President Garfield made James G. Blaine his secretary of state he was in a fair way to embarrass his administration. In fact, it did cause political divisions, and there would have been foreign divisions if Garfield had lived. President Harrison made the same mistake. Blaine was too big a man in his party, too self-willed, too domineering, with too large a following, to be in any man's cabinet.

It may be cited that Cleveland selected Bayard for secretary of state, but there is no comparison with present conditions, because Bayard was far from being the power in the Democratic party which Bryan is at the present time. And if Bryan is not appointed it will not be easy to find a man who is big enough and yet not too big for the place.

**Conservative Chairmen.**

The next senate can be organized on conservative lines without violating precedent. In fact, it looks as if conservative senators would head the most important committees. Bankhead for agriculture, Martin of Virginia for appropriations, Simmons of North Carolina for finance, Tillman of South Carolina for interstate commerce, Bacon of Georgia for foreign relations, Smith of Maryland for naval affairs, Johnston of Alabama for military affairs, Fletcher of Florida for privileges and elections and Swanson of Virginia for public buildings and grounds would mean conservative senators in the lead on the committees which shape the legislation of the senate.

**His Last Message.**

Announcements are made at the White House from time to time that President Taft is at work on his last annual message. It is said that he is making an earnest effort this year to get it out on time—that is, so that it may be sent out in advance for the accommodation of the newspapers. But those who know the president's ways doubt whether he will be ready until within a few days of the convening of congress.

**A Postal Problem.**

Senator Bourne will close the last days of his term wrestling with the problem of rates on second class mail. The postoffice people are determined to do something in regard to second class mail, as shown by the efforts they have made to obtain an increase of rates which has characterized the entire administration of Postmaster General Hitchcock. So far nothing has been accomplished except to give the publishers a great deal of trouble. Senator Bourne will not have time enough to solve the problem during his term.

**High Cost of Living.**

The leaders of one party assert that the tariff is the cause of the high cost of living. The titular head of the other party has suggested that farmers be given easy loans as a means of reducing the high cost of living. All those who pay high prices would like to see something effective accomplished, but how are political parties or heads of administrations going to get around this situation, so common in every part of the country?

A farmer in Virginia produces milk and sells it to a dealer in Washington at 19 cents a gallon. The dealer sells it at 10 cents a quart, a profit of 21 cents a gallon. The same farmer sells eggs at 30 cents a dozen to the same dealer, who gets 50 cents a dozen for them, a profit of 20 cents. The farmer pays the freight to Washington.

No one is going to claim that the farmer is getting too much, but all will agree that the consumer pays too much. It is the everlasting problem of the middleman. The high cost of living is in the profits for those who neither produce nor consume, but handle the necessities of life.

EARTHQUAKE KILLS  
MEXICANS IN CHURCH**Priests Perish With Congregation at Mass.**

Mexico City, Nov. 22.—The town of Acambay, in the northern part of the state of Mexico, practically is in ruins as a result of the earthquake there Tuesday. Fifty-nine bodies have been removed from the ruins of a church and other buildings. Many more remain in the wreckage. The injured will number a hundred. Scarcely a house or public building is intact.

This news reached El Oro through travelers, who report that the roads have been made almost impassable by rock slides.

Most of the dead are women, who were attending mass. The tower walls fell without warning and the priests perished with the congregation.

Families are living in the fields in fear of a repetition of the earthquake. Minor disturbances have occurred from time to time without doing further material damage.

At various other places in the same district the reports tell of devastation and death. At Temascalcingo nine persons were killed and twenty injured. At Altamulco three persons were killed.

**STOCK ISSUE REGULATIONS****Federal and State Supervision Urged by Railway Commissioners.**

Washington, Nov. 22.—The convention of the National Association of Railway Commissioners adopted a resolution favoring legislation providing for federal and state regulation of the issuance of railroad stocks and securities.

A resolution was adopted urging a uniform arrangement between the federal and state governments to insure the accurate weighing of freight as a basis of transportation charges.

The car service committee was directed to give particular attention to the subject of car shortage, from which the shippers of the country now are suffering.

**DENY BISHOP WAS DIVORCED****No Record of Decree Can Be Found in Omaha Court.**

Omaha, Nov. 22.—The statement that Rev. Dr. H. Percy Silver, Topeka, recently elected bishop coadjutor for Kansas, was divorced two years ago by an Omaha court, is denied by officials here. A careful search of the records of the court of Douglas county show no such decree was issued here.

Opposition to his consecration as a bishop by the Episcopal diocese at Albany, N. Y., has been made on the ground that he is a divorced man.

**WILSON GETS CALIFORNIA****Appellate Court Decision Apparently Insures Victory for Him.**

Los Angeles, Nov. 22.—A decision of the appellate court handed down apparently insures a plurality for Woodrow Wilson in California of about 150 votes and nearly all, if not all, of the electors sent by the state to the electoral college.

Failure to certify the returns of Los Angeles county is responsible for the apparent loss of the state by Colonel Roosevelt. The court held that the tallies should be counted and not the certificates.

BATTLE RAGING  
AT TCHATALJA**BOOM BURKE FOR CABINET**

North Dakota Democrats Urge Him for Secretary of Interior.

Fargo, N. D., Nov. 22.—North Dakota Democrats, through the state central committee, have begun a publicity campaign in an effort to induce President Elect Wilson to name Governor John Burke as the next secretary of the interior.

D. H. McArthur, chairman of the Democratic state committee of North Dakota, is sending out circular letters from Fargo to prominent Democrats in the Northwest, urging them to do what they can to help put Governor Burke in the Wilson cabinet. Because the North Dakota executive threw the votes of his state to Wilson on the first roll call at Baltimore, instead of permitting them to be cast for him as a complimentary vote and that he withdrew in favor of Governor Marshall of Indiana in the race for second place on the ticket, is being urged in his favor.

Chairman McArthur adds that Governor Burke has a broad knowledge of land policy that peculiarly fits him for the position of secretary of the interior.

**SEARCH APPEARS FRUITLESS**

Neither Friends Nor Enemies Able to Find Rosenthal Informers.

New York, Nov. 22.—With the disappearance of their taxicabs from the door of the jail all definite trace was lost of Rose, Webber, Vallon and Schepps, the informers in the Rosenthal murder case, who were released. They were keeping their locations dark and the hunt for them by both friends and enemies seemed to have been pretty well given up.

From all indications they intended to remain in hiding for some time. It was expected that all of them would get out of town as quickly as possible.

**HOG CHOLERA IS PREVALENT**

Disease Is Reported in Over Half the Counties of Wisconsin.

Madison, Wis., Nov. 22.—There is more hog cholera in Wisconsin than there has been for years, declares Dr. F. B. Hadley of the Wisconsin College of Agriculture.

Last May the college began to manufacture anti-serum for the prevention of hog cholera. The demand now far exceeds the supply. The disease is prevalent in more than half the counties and no large portion of the state is immune. The worst outbreak is in Dane county.

**JAMAICA FATALITIES GROW**

More Than One Hundred Killed in Coast Towns Alone.

Kingston, Jamaica, Nov.—An official estimate of the dead in the hurricane and tidal wave which visited the western part of Jamaica places the number at more than one hundred in the coast towns alone. Details which are gradually coming in indicate great devastation in the western section.

Practically all lighters, coasting sloops and small craft in the harbors of Green Island, Montego bay, Lucea and Savanna la Mar foundered and a large proportion of the crews were drowned. Many persons living in these towns lost their lives in the collapse of buildings.

There Are Exceptions. Tom—Are all women naturally hard to please? Harry—No; some are super-naturally hard to please.

**Turks Reject Peace Terms and War Goes On.****GREEKS CAPTURE FLORINA**

Occupation of Point South of Monastir Is Said to Have Cut Off Retreat of Thirty Thousand Ottoman Troops. Greek Squadron Lands Men and Takes Possession of the Island of Mytilene.

Paris, Nov. 22.—According to the Constantinople correspondent of the Petit Parisien, a plenipotentiary that Turkey would agree to an armistice only on the following terms:

- That the Bulgarians should not advance beyond the present front; that Turkey, while not surrendering Adrianople and Scutari, would bind herself not to send reinforcements, ammunition or provisions to those garrisons, but that the civil population should be permitted to leave.

London, Nov. 22.—The occupation of Florina by the Greeks is reported.

By the occupation of Florina, which lies to the south of Monastir, the Greeks, according to the Athens report, have cut off the rear guard of the Turkish army to the number of 30,000 retreating from Monastir.

It is also reported that a Greek squadron has landed troops and taken possession of the island of Mytilene. The Greek commander invited the Turkish governor aboard the flagship and demanded the surrender of the island within two hours. The governor asked time to consider and the commander refused his request.

Troops were landed, but they met with no resistance, the weak Turkish garrison retiring into the interior.

The Constantinople correspondent of the Daily Telegraph explains that the Moslem law provides that no part of the khalif's possessions shall be abandoned except in cases of irresistible compulsion. Hence the council's rejection of the Bulgarian terms was based on this law and was suggested by the successful resistance the Turks have made at Tchatalja.

Another factor that influenced the decision was the report of the medical staff that the cases of cholera among the troops had diminished 40 per cent.

Even yet it would seem that the Turkish officials have not abandoned hope that the powers will come to their rescue and attempt to dictate a compromise, but Sir Edward Grey, the British foreign secretary, announced that the powers had not gone so far as to arrange a general conference after the conclusion of the war. Their only agreement as far as surface indications go is to keep their hands off.

From Constantinople, Martin H. Donohue, under date of Nov. 21, sends the following to the Daily Chronicle:

"The Turkish forts at Tchatalja are adequately manned. They occupy an enormously strong position and should the peace parlayings fall the recent three days' artillery duel may prove but the prelude to a far mightier struggle for supremacy on the same grounds."

**Cannonading Is Resumed.**

Constantinople, Nov. 22.—The battle at Tchatalja lines has been resumed. Cannonading was reopened with great violence and is plainly audible here.

Los Angeles, Nov. 22.—Carl Reidelbach, who invaded Central police station Tuesday with an infernal machine, was arraigned in the municipal court charged with a violation of the penal code which prohibits the placing of dynamite in any place where human beings congregate, with malicious purpose to kill or maim. One year to life imprisonment is the penalty prescribed.

Reidelbach showed no symptoms of skull fracture when brought into court. His preliminary hearing was set for next Monday.

The building committee of the Swedish Lutheran church entertained at the basement of the church last night. The basement has been completed and this section of the structure was presented to the congregation by the committee, Attorney G. S. Swanson delivering the address. Rev. E. O. Carlson, pastor of the church, related the work done by the various committees and paid a high tribute to the energy shown by them and by the congregation. G. N. Goldstrand related his experiences

on a trip to Sweden. As a token of their esteem members of the congregation presented Rev. Carlson with a purse of \$50. The popular minister was taken completely by surprise, but managed to find words eventually to express his thanks for the kindness and thoughtfulness shown him. Refreshments were served by the ladies of the church at the conclusion of the evening's entertainment. The basement is divided into a main room, a committee room, furnace room, toilet room, kitchen and store room. The indirect system of lighting has been installed. It is contemplated that the church will be completed next year and work will commence on the main structure in the spring. The committee wishes to thank those who have so generously contributed to the building fund.

## SOO LINE TO STEEL PLANT

Railroad Files Application for a New Line From Superior, Wis., to Lawler

## SHORTENS CUYUNA RANGE LINE

Will Run From the Range Past the Steel Plant to big Furnaces on St. Louis River

Plans have been completed by the Soo line, says the Superior Telegram, for direct connection with the new steel plant which is under construction for the United States Steel corporation, on the St. Louis river.

Application has been filed with the Minnesota authorities for the starting of condemnation proceedings for the construction of a line running from the westerly end of the Northern Pacific's Grassy Point bridge, along the Minnesota side of the St. Louis river, past the steel plant and on to a point near Lawler, Minn.

Surveys have been completed by the Soo for the construction of a line from the end of its present tracks at the passenger station at Ogden avenue and Winter street west to the easterly end of the Grassy Point bridge.

This is the route which the Wisconsin Central proposed to follow in entering Duluth, prior to the time it was acquired by the Soo line. The Soo has already arranged for a line from Duluth proper to West Duluth.

The construction of the new line from Superior to Lawler, past the steel plant, will give the Soo a short line from the Cuyuna iron range to the big furnaces on the St. Louis river, which will be large users of the low grade Cuyuna range ore when they are placed in operation. It is generally understood that one of the things taken into consideration by the steel corporation in erecting the steel plant near Superior and Duluth was the fact that the cheap low grade ore from the Mesaba and Cuyuna ranges could be used in the manufacture of steel, at a profit, while it could not be done at the eastern furnaces.

He was in the gold rush to Alaska in the days of '97, accompanying Mr. Magoffin who is now prominent in the development of iron lands on the Cuyuna range and has a residence in Deerwood.

Mr. Donald said that a striking feature in Alaskan gold discoveries was the strikes being made in quartz mining.

## BEAUTIFUL PICTURES

Herbert R. Bartlett Paints Nine for the Empress Theatre of This City

The Empress theatre has received a notable collection of fine oil paintings from the brush of Herbert R. Bartlett. Six have been placed in the main part of the theatre and three in the foyer.

One designates a boating scene at Venice. Its companion piece is a copy of Remington's "Bringing Down the Furs," the original of which hangs in the rooms of the Minneapolis Commercial club. It shows a number of Indians in a fur-laden canoe paddling to the stockade and settlement where the fur trader awaits their coming. Another canoe has landed and the Indians are seen packing their furs up the hill to the settlement. This is a very fine picture and by some is regarded as the best in the collection.

Near by is a hunting scene showing the red coated master of hounds and his assistants surrounded by a number of dogs, all eager for the hunt to begin. "The Chase" shows a fox hunt in full progress. "The Indian Scouts" is a copy from a Remington picture and portrays three Indians on their ponies reconnoitering from a point in the sage brush desert. "Twilight on Venetian Waters" is an interesting marine study.

In the foyer Mr. Laymon has placed two landscapes, companion pieces, one a view of summer at a farm home, glowing with the warm, brilliant tints of a summer day. Opposite is an autumn study, fallen leaves flecking the ground at the farmer's home. Between the two studies is a church scene. Gold moulding appropriately frames the pictures.

In addition, the theatre has been redecorated and a new color scheme employed in the interior, in harmony with the pictures recently placed in position. "The Empress," said Manager Laymon, "will be known hereafter as 'The Empress, the Theatre Beautiful.'"

## NEXT MEETING AT CROOKSTON

Northern Minnesota Development Association Will Meet December 5 and 6

## MACKENZIE PREPARES PROGRAM

Crookston Making Preparations for the Entertainment of the Delegates Next Month

Preparations are being made for the next meeting of the Northern Minnesota Development association at Crookston Thursday and Friday, December 5 and 6.

Secretary W. R. Mackenzie is preparing a program and it will be made public in a few days. A meeting of the committees of the Northern Minnesota association and representatives of the Southern Minnesota and West Central associations were held in Minneapolis Thursday, at which time a state development program was mapped out. The three associations have worked together in the past and the most notable achievement in the get-together spirit was the adoption of the one-mil road tax amendment.

Crookston is making great preparations for the coming meeting of the Northern Minnesota Development association. The second meeting of the association was held in Crookston, preceding the Brainerd meeting, and it was one of the best gatherings in the history of the organization. At this December meeting the association will formulate its program of things necessary in a legislative way and as the legislature convenes in January, the Crookston meeting will accordingly be a most important one for putting the association on record concerning matters of vital public interest.

## PEEK A BOO LIGHT

Flickering Electric Light Drives a Reader to Verse and She Writes a Limerick

The flickering light of the last few nights has worn on the nerves of all Brainerd people and it drove one Brainerd lady to composing a limerick, witty and to the point:

The peekaboo waist is long out of date  
For fashions will change, it is needless to state,  
But the peekaboo light  
Which we see every night  
Seems as settled and sure as taxes or fate.

The light situation has passed the funny stage. Starting so early in the winter season, when the demand for current will continually increase, unsatisfactory service now will continue to increase and no one can forecast what the state of affairs will be when the peak of the winter load is reached in December, January and February and especially during the December holiday season. Something should be done quickly to remedy conditions and to prepare for the period of the year when the most light is used.

## W. A. FLEMING'S STATEMENT

County, Not Crosby Authorities, Caused Arrest of Violators of Liquor Law

Editors Dispatch:

The item in your paper "that the local police authorities of Crosby have taken a determined stand against alleged illegal liquor traffic," and so forth, is not in accordance with the facts. So far as I know the "local authorities" have done nothing in this line. It was the county authorities that caused the arrest of these violators of the liquor law and also the keeper of the house of ill fame. We only wish the local authorities of Crosby would do something to help us in this matter.

## \$769 RAISED

Subscriptions Turned in by Workers Assembled at Y. M. C. A. Last Night

Seven hundred and sixty nine dollars in subscriptions has been turned in by the workers when they assembled at the Y. M. C. A. building for supper last night. Taking into consideration the fact that very few of the workers were engaged in the canvas yesterday and that only a limited number of friends were seen this is a very encouraging report.

W. H. Day, traveling railroad secretary for the northwest and far-west was in the city yesterday and assisted in the campaign. Mr. Day stated that he believed the campaign would be successful. He warned the workers, however, that there would be need for persistent effort, that no man should allow himself to become discouraged, and if the work went only slowly for the first day or two that should be an added incentive for more persistent endeavors.

Some rivalry among the teams is expected today. The members of the various groups selected a large number of names to solicit from today and there seemed to be an undercurrent of satisfaction among the different men who were fortunate enough to secure a good list of prospective subscribers.

The leaders in the campaign seemed pleased with the first day's activities. That the amount necessary to cover the indebtedness will be secured is the prevailing feeling, but this note of warning is sent out: every subscriber should do his very best. It is far better to pay the full amount now than to be called on at regular intervals for donations.

The supper, Wednesday night by the ladies of the Seventh Street Norwegian Lutheran church and last night by the ladies of the Presbyterian church, were both splendid. The supper tonight will be served by the ladies of the First Congregational church at 6:15 instead of 6 o'clock. The management wishes to thank in this way all the ladies who have been so kind as to render this service.

Every worker and those interested should be present tonight at the Y. M. C. A. promptly at 6:15 to enjoy the supper and hear the reports of the workers.

Mr. Hiram Steele, 628 N. 6th St., Terre Haute, Ind., writes: "I came down with a severe case of kidney trouble. I had to get up too often at night, there was pain and much sediment, puffs under my eyes, back pained terribly, and I was dizzy. Foley Kidney Pills cured me quickly, and I feel 100 per cent better." ## MUSIC AND DRAMA

### "Buster Brown"

Of "Buster Brown" which appears at the Brainerd opera house on Thanksgiving matinee 2:30 P. M. and Thanksgiving evening, November 28, the Evanston Index and North Shore Saturday Night at Evanston, Ill., says, in part:

"Mr. William M. Vance, is nothing, if not keenly alive, in providing variety, as well as quality, for the numerous patrons of the popular Evanston theatre. As a change from the dramas, uppermost in public attention, which have been, during the present season, exploited upon the stage of the house he controls, there came on a visit, this week, our particularly good friend 'Buster Brown,' and large and enthusiastic houses have, each night, for the entire week, come to welcome him.

"Now 'Buster,' who is the up-to-date latest-minute, typical exponent of American childhood, is the well-known 'kid,' who has relegated 'Little Lord Fauntleroy,' and the artistically draped prodigies of Kate Greenway, to so far back a realm of tradition, that they only recall memories of 'Rollo' and the good little boys in 'Sanford and Merton.'"

"But Buster, the irrepressible, the annoying, the lovable, whom one has a desire one moment to spank, and the next instant to present a double portion of strawberry jam for his cookie, is distinctly the product of the twentieth century. What fond father and mother does not recognize him?"

Forty musical artists are part of the big "Buster Brown" show which comes to Brainerd Thanksgiving afternoon and evening.

### "The Fortune Hunter"

Brainerd will soon have an opportunity to see "The Fortune Hunter" when that most delightful comedy which has had its run of two years at the Gaiety theatre, New York, and half as long at the Olympia theatre, Chicago, comes to the Brainerd opera house some time this month.

This delicious comedy by Winchell Smith tells a story of a young man who goes to a country town in quest of a rich girl who will bring him a fortune. This young man, Nat Duncan, has run through with a fortune, and for five years has been living off a well-to-do former college chum. Duncan finally awakens to the fact that he must do something for himself and his friend offers to provide him with a certain amount of cash if he will live up to the rules prescribed by him.

Under this agreement Duncan is to receive \$500 in cash, go to a small town, live a moral life, attend church, seek employment and assume a becoming modesty. "Do this," his

We Guarantee to Cure Yours

We personally guarantee to return to you all you pay us for Dr. Cunningham's Anti-Rheuma Toxine if you bring back the empty bottle and say it has failed to help you. H. P. DUNN

This is a strong claim but we are so sure of favorable results that we take the risk in your trial. We can now offer a preparation for the cure of Rheumatism that is guaranteed to give the results you seek. This is

## Dr. Cunningham's Anti-Rheuma Toxine Prescription

A specialist in Rheumatism, Gout and all uric acid complaints perfected, after much careful work, the formula for this remarkable remedy. He has given a prescription which produces results that are almost miraculous. And the medicine does not upset the stomach and heart as do many secret preparations. The formula is on every label.

To get almost instant relief you should apply a Dr. Cunningham's Plaster to the part most affected. This will draw out the uric acid as the internal remedy breaks up its deposits. Remember—you take no risk in this treatment and you will do well to start taking it today. **READ OUR GUARANTEE Again.**

### HAVE A LEADER

Farm Specialties May Pay Well—  
A Hint to the  
Farmers

Every progressive merchant, no matter how large his stock or trade, caters to the public with some particular part of his stock as a leader. Likewise, sensible farming may call for a diversity of lines, but he is a poor workman who does not show aptness for some particular thing, and indeed a poor farmer if one cannot find something to commend. If your aptness leads you toward dairy stock, horses, hogs, corn, turkeys, or whatever else, follow it to the extent that it brings you not only satisfaction and success, but financial return as well. Do not, however, permit it to so far outweigh the other lines you are following that it will unbalance your system of farming. One-sided farming is dangerous to follow, and is seldom a lasting success.

Your leader should be one that will attract the attention of your neighbors and set the pace along a line in the community. Not only will it set the pace of the community, but if you are made of the right stuff it will mark the pace for the other lines you are following, and raise your standard along all lines.—O. M. Olson, Extension Division, University Farm.

### NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapiesin" Stops Fermentation and Makes Your Upset Stomach Feel Fine in 5 Minutes  
Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul; tongue coated—just take a little Diapiesin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

### "Tells the Whole Story"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat, chest and lungs. Stops la grippe coughs and has a healing and soothing effect. Remember the name, Foley's Honey and Tar Compound, accept no substitutes. H. P. Dunn, druggist.—Adv.

How He Managed It.  
They were entertaining the minister at dinner, and after the dessert had been eaten little Johnny said, "Won't you have another piece of pie, Mr. Hobbs?"  
The minister laughed. "Well, Johnny," he said, "since you are so polite I believe I will have another slice."  
"Good!" said Johnny. "Now, ma, remember your promise. You said if it was necessary to cut into the second pie I could have another piece."—Ladies' Home Journal.

**BEST AND HEALTH TO MOTHER AND CHILD.**  
"Mrs. Winslow's SOOTHING SYRUP has been used for over SIXTY YEARS BY MILLIONS OF MOTHERS for their CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN; CURES WIND COLIC, and is the best remedy for DIARRHOEA. It is absolutely harmless. Be sure and ask for 'Mrs. Winslow's Soothing Syrup,' and take no other kind. Twenty-five cents a bottle."

If you'll drop in here for a few minutes tomorrow, we'll guarantee that you won't mind how much it snows this winter—or how slushy the streets are. We want to show you the famous Dr. A. Reed Cushion Shoes—the shoes that make walking in winter a pleasure because they keep out the chill and the dampness that soaks through the soles of ordinary shoes.

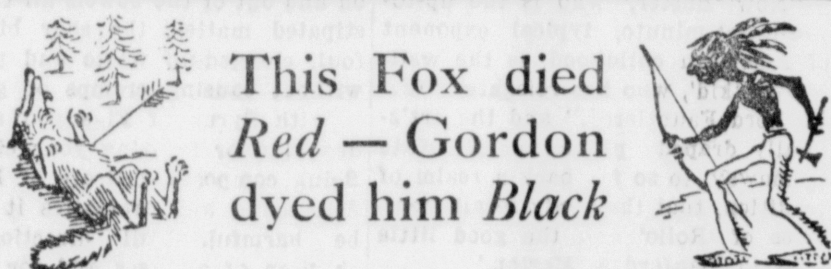

For winter wear, there's absolutely no shoe that we know of, that can equal the Dr. A. Reed Cushion Shoe.

Ordinary shoes have nothing but a hard, porous leather sole between your foot and the icy pavement—while Dr. A. Reed Cushion Shoes have a special insole—a soft fibre cushion—that protects your feet—keeps them dry and warm. Cold or moisture can't get through—and walking is made ten times easier and more delightful—for the cushion insole fills the hollows of your feet—supports the arches—and distributes your weight evenly over the whole foot. Try—
